Healthcare Duct Panelling

WHS

Boxed Out Full Height Unit

- All Panels are post-formed on the vertical edges.
- Lipped using matching PVC edging on all horizontal edges.
-

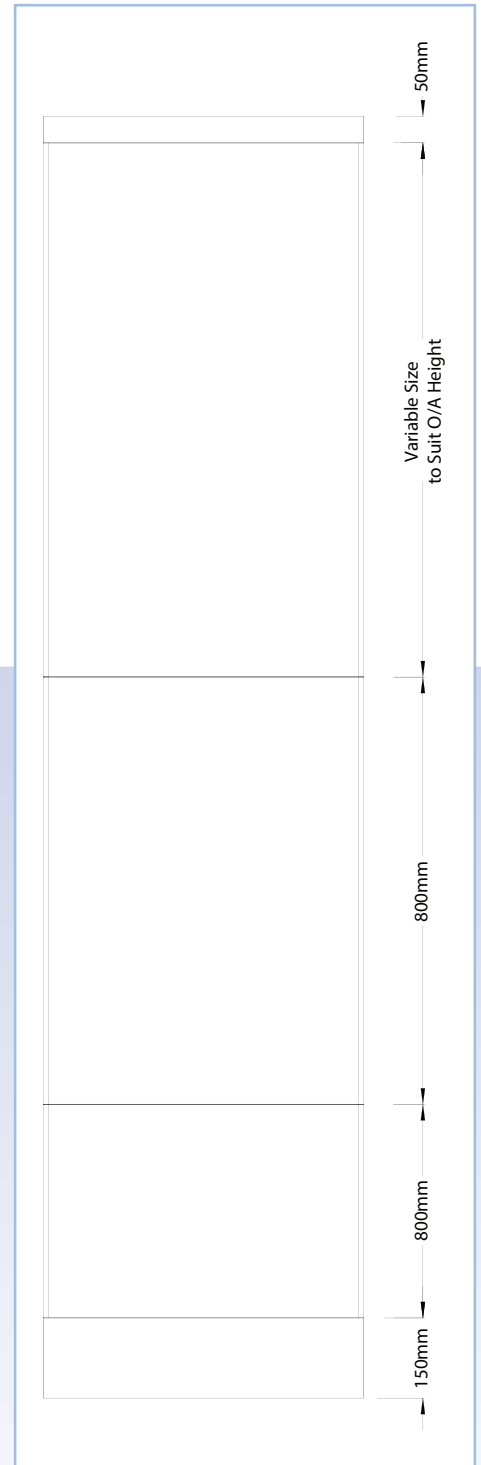

Panels Split to suit sanitary-ware requirements.

All our Duct Panelling Units can be manufactured to suit your particular needs.

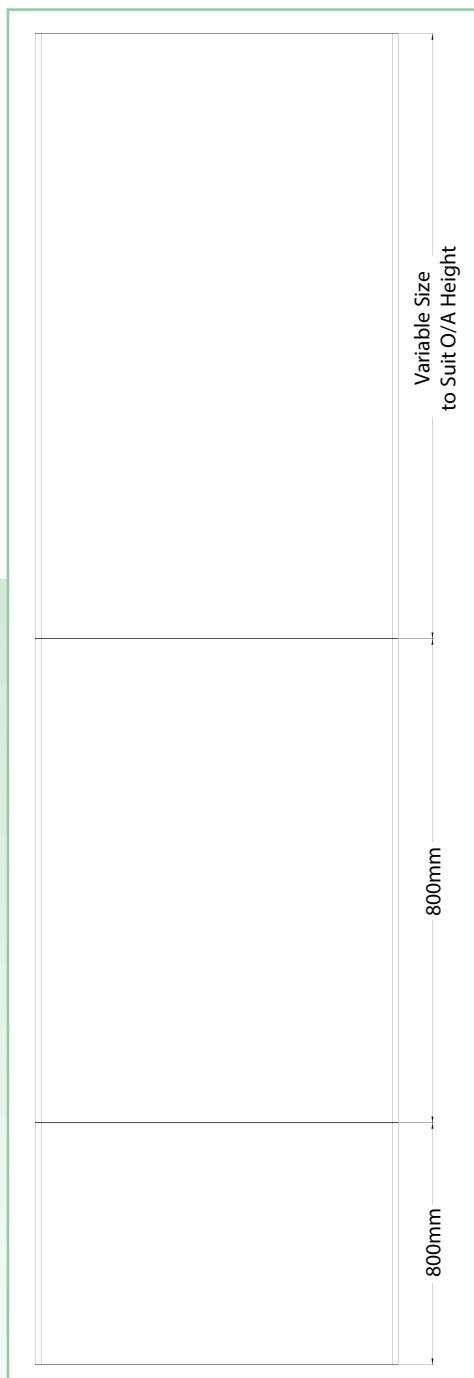

Fully assembled, Full Height Units provide speed and ease of installation, where insufficient duct space is available.

- Top Panel is on Lift On/Off Clips.
- Middle Panel is a Fixed Panel, this is for ease of installation.
- Bottom Panel is on Push On/Off Clips to gain access if needed.

Panels Only

- All Panels are post-formed on the vertical edges.
- Lipped using matching PVC edging on all horizontal edges.
- All units have the option to change the facing panels to a 12.5mm Compact Grade Laminate.
- For fitting into apertures within dry lined stud partition walls.

Space saving panels only do not protrude into the room, they are the most cost effective solution.

- Top Panel is on Lift On/Off Clips.
- Middle Panel is a Fixed Panel, this is for ease of installation.
- Bottom Panel is on Push On/Off Clips to gain access if needed.

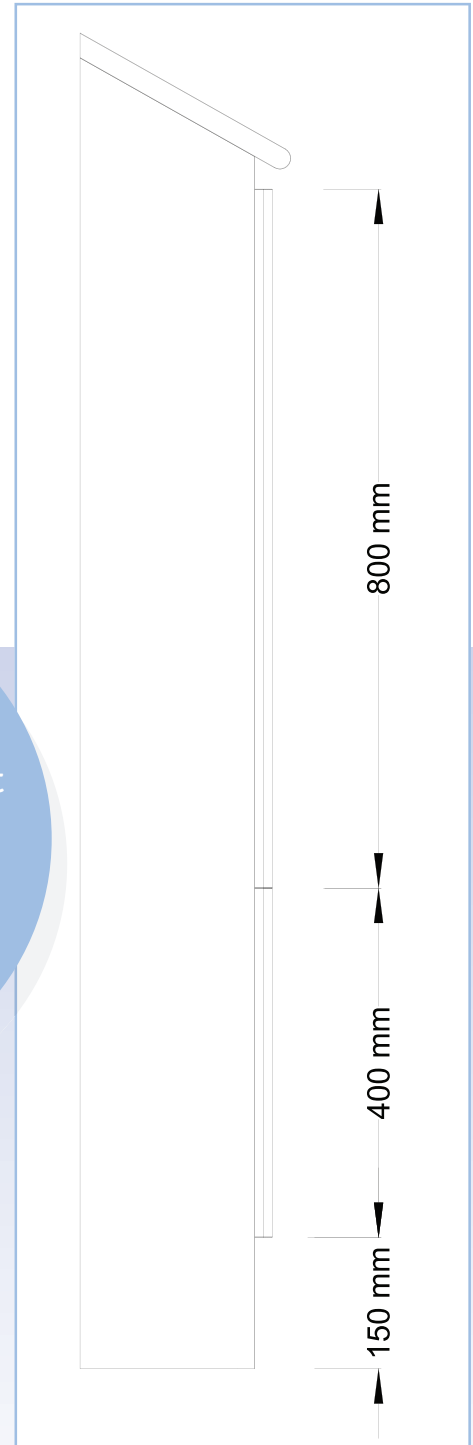

Boxed Out Half Height Unit

- All Panels are post-formed on the vertical edges.
- Lipped using matching PVC edging on all horizontal edges.
- Panels Split to suit sanitary-ware requirements.
- Variable box unit depth to accommodate all services.

Where height isn't available, our Half Height Unit comes standard with a sloping lid to comply with latest regulations.

- Top Panel is a Fixed Panel, this is for ease of installation.
- Bottom Panel is on Push On/Off Clips to gain access if needed.
